Data analyst program

How to Enroll

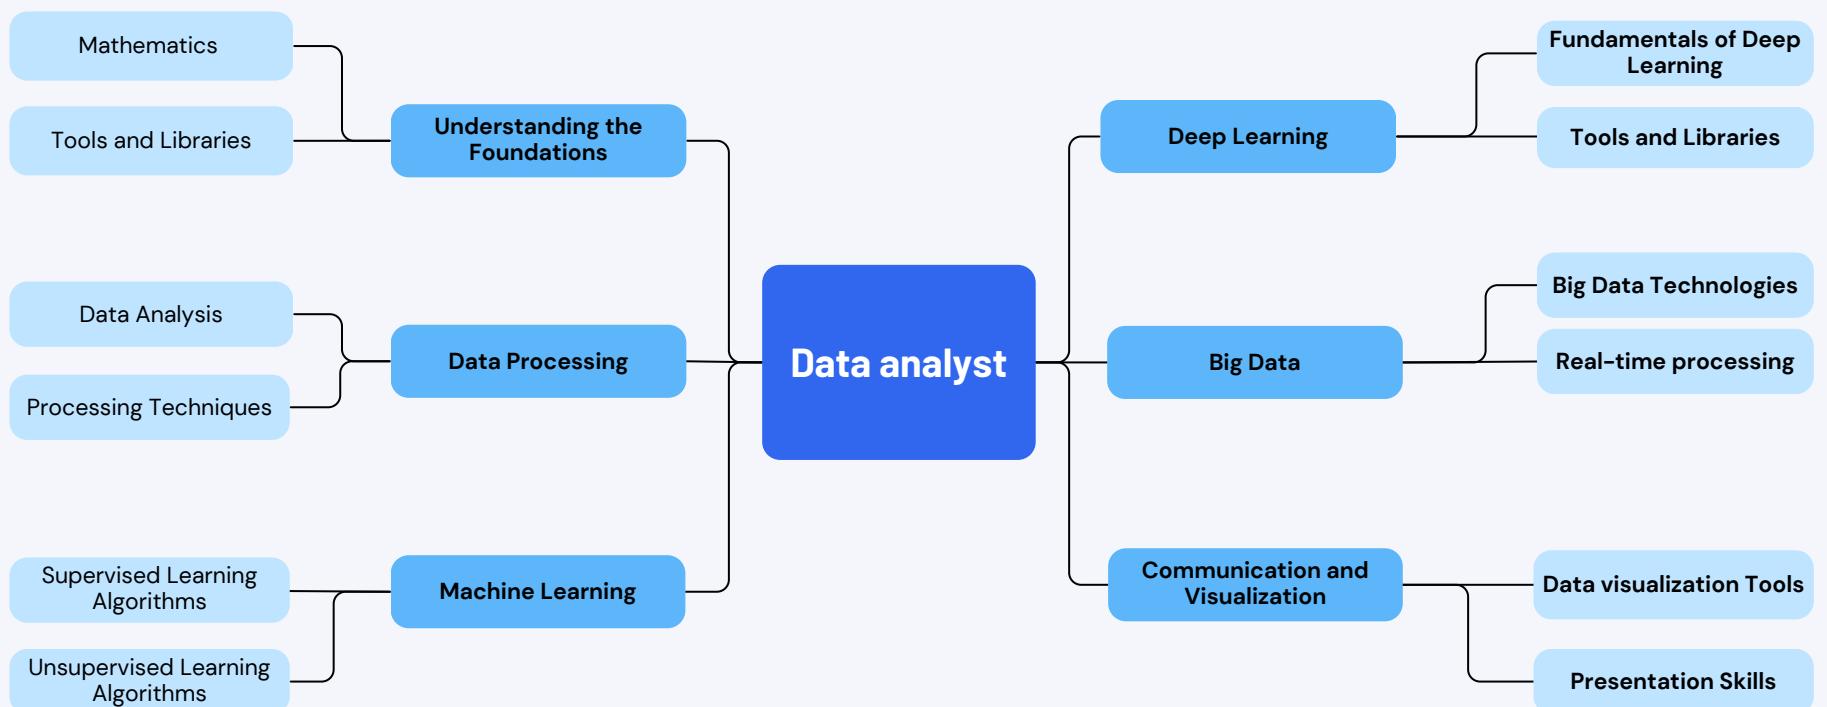

2,54151/- including all taxes

The program fees only pertains to training, tuition, boarding and lodging costs for the Live & campus training.

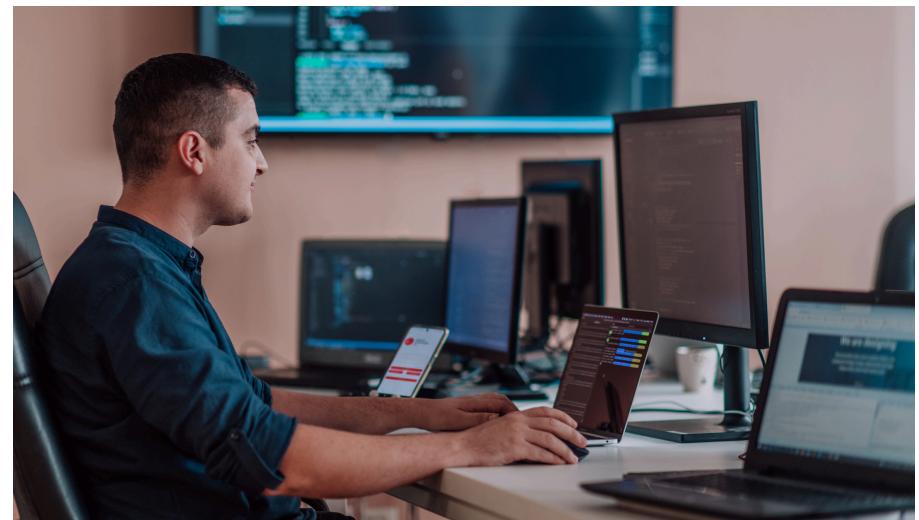

Data Analyst Roadmap

Data analysis is critical in today's data-driven environment. It is the process of evaluating, cleansing, manipulating, and modeling data in order to extract useful insights for decision-making. A Data Analyst is largely responsible for gathering, processing, and conducting statistical analyses on massive datasets. They learn how data can be used to answer questions and solve issues.
